The values used for segment reporting comply with the accounting and valuation methods applied in the IFRS consolidated financial statements. The operating result (EBIT) is reported as segment result. The transfer prices are defined in line with the OECD Guidelines.

Condensed Notes to the Consolidated Financial Statements for the 1st to 3rd Quarter of 2018/2019 (unaudited)

1. General Information

1.1. Basis

DO & CO Aktiengesellschaft (DO & CO, the Company), domiciled in 1010 Vienna, Stephansplatz 12, is the parent company of an international catering group. It conducts business in the three divisions Airline Catering, International Event Catering, and Restaurants, Lounges & Hotel.

The reporting date is 31 March.

The interim financial statements of all subsidiaries included in the consolidated financial statements were properly prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU that are effective for the business year 2018/2019, and in accordance with uniform group-wide accounting principles set out by the parent company.

The interim consolidated financial statements as of 31 December 2018 were prepared in accordance with IAS 34 (Interim Financial Reporting). The interim consolidated financial statements do not contain all information and disclosures that are included in the financial statements, and should be read in connection with the consolidated financial statements as of 31 March 2018.

Unless otherwise stated, the interim consolidated financial statements were prepared in millions of euros (m€), figures in the notes are also presented in millions of euros (m€). Both individual figures and total amounts represent the smallest rounding difference. When the reported individual figures are aggregated, slight differences to the reported total amounts may therefore arise.

The interim consolidated financial statements as of 31 December 2018 have neither been audited nor reviewed.

1.2. Accounting and valuation methods

The accounting and valuation methods applied in the course of the preparation of these interim consolidated financial statements comply with those used in the consolidated financial statements as of 31 March 2018.

For further information on the accounting and valuation methods applied, we refer to the consolidated financial statements as of 31 March 2018 that form the basis of these condensed interim consolidated financial statements.

In the first three quarters of the business year 2018/2019 the following new or amended standards and interpretations become effective. A voluntary early adoption did not take place.

New and amended standards and interpretations

IFRS 9 Financial Instruments

IFRS 9 "Financial Instruments" was applied for the first time at 1 April 2018.

The table below shows the previous measurement category and the carrying amount determined pursuant to IAS 39, as well as the new measurement category and the carrying amount determined pursuant to IFRS 9 at the time the standard was applied for the first time. The table shows that the implementation does not have a significant impact.

AC: financial assets measured at amortised cost

AfS: Available-for-Sale Financial Assets

FLAC: financial liabilities measured at amortised cost

FVTPL: financial assets mandatorily at fair value through profit or loss

LaR: Loans and Receivables

In accordance with the measurement category under IFRS 9, investments and securities are stated at fair value through profit or loss. The option to state investments directly in equity upon initial recognition was not used.

The remaining financial assets fulfil the requirement that only interest payments and redemptions exist and are therefore measured at cost.

Moreover, the Group prepared a model to systematically record expected impairment losses. Applying this model, the expected impairment loss at the implementation date 1 April 2018 amounted to € 0.28m, demonstrating that the required adjustments are of minor extent.

IFRS 15 Revenue from Contracts with Customers

IFRS 15 "Revenue from Contracts with Customers" was applied for the first time at 1 April 2018.

DO & CO assessed the impact the application of IFRS 15 may have on its financial situation and performance. The main customer contracts from all business segments and divisions were analysed with regard to separate performance obligations and to the possible deferral of revenue. The Airline Catering, International Event Catering and Restaurants, Lounges & Hotel divisions are not significantly affected by the separation of performance obligations. Contrary to the Airline Catering and Restaurant, Lounges & Hotel divisions, more than one performance obligation was identified in the International Event Catering division: (1.) catering services, and (2.) infrastructure services. In this division, the contract for providing services at several motor sport races was additionally analysed in detail with the quantitative impact in mind. Due to pricing, no allocations are required.

Due to the timing of the race days and the subsequent incoming payments, contract assets can only arise in the first half of the business year of the DO & CO Group, with its values insignificant from the perspective of the Group. As there would be no more contract assets at the end of the business year, from the DO & CO Group's perspective no material implementation effects arising from IFRS 15 exist. The Group will continuously evaluate the contractual arrangements in all divisions so as to determine whether any adjustments become necessary.

IFRS 4, Improvements to IFRSs 2014-2016 Cycle, IFRS 2, IAS 40, IFRIC 22

No or no material impact on the consolidated financial statements is expected when applying the new or amended standards IFRS 4 (Applying IFRS 9 Financial Instruments with IFRS 4 Insurance Contracts), the amendments and clarifications issued in the course of the Annual Improvements to IFRSs 2014-2016 Cycle with regard to IFRS 1 (First Time Adoption of IFRS) and IAS 28 (Investments in Associates and Joint Ventures), as well as the amendments to IFRS 2 (Classification and Measurement of Share-based Payment Transactions), to IAS 40 (Transfers of Investment Property) and IFRIC 22 Foreign Currency Transactions and Advance Considerations.

New, but not yet mandatorily applicable standards

IFRS 16 Leases

The accounting standard IFRS 16 "Leases", issued in January 2016, replaces the previous IAS 17 "Leases" as well as the corresponding interpretations. It introduces a single lease accounting model for lessees that will no longer differentiate between operating lease and finance lease but requires right-of-use assets and lease liabilities to be recognised for all lease agreements. IFRS 16 provides exceptions for short-term leases and assets of low value. There will only be minor changes for lessors compared to the accounting under IAS 17 as they still differentiate between operating leases and finance leases.

With regard to IFRS 16, the evaluation and analysis of the contracts pertaining to all Group companies has been completed and a Group-wide overview of all lease agreements prepared. Based on the analysed contracts, the main focus will be on real estate leasing and subleases, if any, including the corresponding issues (determining the term of the lease, treatment of leased fixtures, determining the underlying interest rate). The possibility of not capitalising a right-of-use asset due to short-term leases or leases where the underlying asset is of low value is still being analysed.

DO & CO currently deals with the technical implementation of the new leases standard into the system.

Since the minimum lease payments due on the reporting date 31 March 2018 under uncancellable operating leases amount to € 158.79m (see consolidated financial statements as of 31 March 2018 Section 7.2. Contingencies and financial liabilities), a material extension of the statement of financial position with regard to assets and liabilities is expected as a result of the first-time application of IFRS 16. At present, no information can be provided as to the amount because the analyses of the above stated relief provisions and the provision related to the incremental borrowing rate have not yet been completed.

Rental and lease expenses from operating leases are shown under *Other operating expenses* in the consolidated income statement. When applying IFRS 16, the rights of use are capitalised and recognised in the item *Amortisation / depreciation and effects from impairment tests* over the term of the lease. In addition, part of the cash flow from operating activities is now shown under the cash flow from financing activities in the consolidated statement of cash flows, since the redemption of lease liabilities is to be reported as cash flow from financing activities.

DO & CO plans to apply IFRS 16 for the first time at 1 April 2019, using the modified retrospective approach.

1.3. Scope of consolidation

The following company founded by DO & CO was consolidated for the first time in the first three quarters of the business year 2018/2019:

- FR freiraum Gastronomie GmbH (100 %)

The non-operating and insignificant wholly owned subsidiary DO & CO Ukraine LLC was deconsolidated as of 31 December 2018.

1.4. Seasonality

Airline Catering and International Event Catering are subject to fluctuations in business volume. Whereas increased flight and passenger numbers for airline customers are of significant importance particularly in the first and second quarter of the business year due to the holiday and charter season, the changing dates for major sporting events are key in International Event Catering.

2. Comments on the Consolidated Statement of Financial Position

2.1. Asset held for sale / Liabilities directly allocable to assets held for sale

In the second quarter of the business year 2018/2019, the Management Board of DO & CO Aktiengesellschaft took the decision to pursue the disposal of Turkish DO & CO's hotel on the Bosphorus, which is under construction, to Turkish Airlines.
